

TALES OF THE ECHOWOOD

A Cosmic Fairytale Audio Drama created by Trevor Van Winkle

Produced by Homestead on the Corner

Distributed by Realm

The show launched August 27th, 2021

THE STORY

When a human traveler wanders through a mysterious doorway, they find themselves on the threshold of a strange inn, lost in another world. Inside, they meet an old sprite named Grael – one part innkeeper, two parts storyteller, and one part deposed trickster god. The sprite uses a series of strange, interconnected tales to teach them about the twisted fairytale realm they've stumbled into... Only for the traveler to realize that Grael might not be as trustworthy as he seems, and the Echowood more dangerous than they could have imagined.

Season 1 is available now. Future seasons are being hoped for and planned for 2024 and beyond.

WHAT PEOPLE ARE SAYING ABOUT *TALES OF THE ECHOWOOD*

“This show messed me up in one of those bittersweet and unexpected ways that once you finish you just kinda have to sit there staring off into space for a while before coming back to reality.”

–*Feeding Werewolves, Podchaser Review*

“TL;dr: Listen to this podcast. It’s beautiful and masterful, and a labor of love. You will not regret it. I don’t normally write reviews. I’ve been a longtime podcast listener, and there are only a few that have ever moved me, but none enough to write a review. I’m only on the third episode, but Sam Taylor’s voice is beautiful. I absolutely love his character, and love the way the soundscape is interwoven with the tales he narrates. Each story is beautifully crafted, and lovingly told. Each expression is beautiful and I love the way the narration includes us, as listeners. Kudos to the Homestead on the Corner team. You’ve succeeded in creating an absolutely enchanting, mystifying, and horrifyingly beautiful piece of fiction. Thank you.”
